

TO: HONORABLE MAYOR AND CITY COUNCIL
FROM: Mike Gesme, PEG Access Coordinator
SUBJECT: PEG Access Technician
DATE: April 1, 2014

BACKGROUND

Due to high school students graduating and going to college, we are down to one part-time cable technician during the school year. Usually we maintain 2-3 technicians, depending on the individual students' availability to work and involvement with other activities. To help us continue to broadcast meetings, sports, community events, and produce local interest programming, I recommend the hire of Matthew Delk. A member of the Tech Masters student group at the high school, Matthew is excited to learn about TV production. His aptitude and ideas would be welcome additions to our program. Wages for part-time technicians are included in the cable television budget, and no change to the budget is being requested at this time.

STAFF RECOMMENDATION

Staff recommends the City Council approve the hire of Matthew Delk as a part-time PEG Access Technician, pending a background check.

REQUESTED COUNCIL ACTION

I respectfully request a motion to approve the hire of Matthew Delk as a part-time PEG Access Technician, pending a background check.
