

TO: Honorable Mayor and City Council
FROM: City Administrator Ron Johnson
SUBJECT: 3rd Street Bridge Emergency Repair
DATE: November 10, 2016

BACKGROUND

As you are likely aware, traffic on the 3rd St Bridge has been restricted to the center of the bridge for safety reasons. Goodhue County Engineer Greg Isakson is preparing requests for proposals to complete an emergency repair so the full width of the bridge and the pedestrian path are open for use this winter.

It is anticipated the cost of repairs will approximate \$10,000. Timing is of the essence and we would like approval to accept the lowest responsible proposal and order the work.

REQUESTED COUNCIL ACTION

Approve a motion authorizing staff to accept the lowest responsible proposal to complete emergency repairs on the 3rd St Bridge.
