

TO: Honorable Mayor and City Council

FROM: Tim Malchow, EMS Chief

SUBJECT: Purchase 2017 Road Rescue

DATE: September 5, 2017

BACKGROUND

Cannon Falls Ambulance has put together a proposal believed to meet the ambulance service's needs over the expected service life of this ambulance. The new ambulance is designed to closely match the other ambulances in order to keep things consistent. The new ambulance will have the Stryker PowerLoad installed, sliding side entry door, and extra cab room. Build time is approximately 120 days from order.

If approved tonight we will save additional \$3,500 from the factory due to production slow down and an estimated \$6,000 from a mandatory price increase in January. We would not pay for the ambulance until budget year 2018. The ambulance is in the capital plan for replacement in 2018 and we currently have funds available for purchase.

REQUESTED COUNCIL ACTION

Request a motion to approve a purchase of a 2017 Road Rescue Ambulance for a net cost of \$194,000.00 which includes the trade in of the 2008 Horton Ambulance.
