

To: Cannon Falls City Council

From: Steve Dabelow

Date: May 30, 2018

At the last city Council meeting where I, Steve Dabelow, made a presentation regarding the purchase of the Janice O'Brien house (212 West Mill Street) it was determined and agreed that the city would be the owner of the property and that the Cannon Falls Area Historical Society would be raising the money.

There has become a need for the O'Brien's to close on the sale of their property by June the 29th. Although the Historical Society has been in front of several donors and received several commitments we will not have the dollars to close on the property of June the 29th.

The hope is that the city can execute the purchase, by June the 29th, and that the Historical Society would continue to raise money and reimburse the city for their cost. This arrangement would be similar to the fund raising and building of the current library.

It is also the wish and the hope that the city would participate as a contributor in the raising of funds for this project.
