

MEMO

TO: Mayor and Council

FROM: Mike Althoff, Public Works Director

SUBJECT: Invenergy Sewer Credit

DATE: May 21, 2019

BACKGROUND

On February 2nd, Invenergy experienced a large leak caused by a faulty valve. Public Works staff noticed the excessive water use because of the increase of use at the well site. This was later confirmed by a site visit to Invenergy; a photo is attached of the pooling water. Public Works staff verified that none of the leaked water went into our sewer system; it was all contained in their ponds.

After following our crediting procedure, we came up with a total credit of \$4,854.42. Public Works Commission discussed at their May 13th meeting and approved the sewer credit.

REQUESTED COUNCIL ACTION

Motion to approve the sewer credit of \$4,854.42 for Invenergy.
