

# MEMO

**TO: MAYOR AND CITY COUNCIL**

**FROM: MIKE ALTHOFF, FIRE CHIEF**

**SUBJECT: Boat Trade**

**MEETING DATE: April 7<sup>th</sup>, 2020**

## **BACKGROUND**

We have noticed a change in our boat needs over the last 10 years. Primarily our boat was used for search operations on Lake Byllesby. The county now has their own dive team and boat to cover these needs. Cannon River use seems to be on the rise and so has our calls for emergencies on the river. The calls are usually search or medical related. Police Chief McCormick has gotten permission from the DNR to install some access points to launch boats faster and easier for these types of calls. Our current boat is not the best option for river use. Our apparatus committee viewed and operated a few options. It is their and my recommendation to trade our current boat on a zodiac style with jet motor for better river operation. We would use the same company that sold us our current boat. Trade in price to the department would be \$1,140.00. Delivery fee is \$2,279.00. We would like to save some money and pick the boat up ourselves. The Relief Association has approved a donation of \$2,500.00 to cover the trade cost and pick up expenses.

## **STAFF RECOMMENDATION**

I recommend approving the boat trade bid received from Rescue One.

## **REQUESTED COUNCIL ACTION**

Make motion and approve trading our current Rescue One 1660 Connector Boat for the Pro X 430 inflatable boat, motor and trailer package.
