

**TO: Mayor and City Council**

**FROM: Dan Howard, Public Works Director**

**SUBJECT: Reznor Heater replacement – Building 40 WWTP**

**MEETING DATE: Tuesday, June 15, 2021**

**BACKGROUND**

The Reznor heater on building 40 at the WWTP failed as a result of an internal electronic fire. Four quotes were received for replacement of the heater. A quote of \$45,784 from MMC, \$39,532 from Cannon Valley Mechanical, \$34,850 from Apex Mechanical, and \$30,137 from Harris Company. We have been advised that there will be a substantial increase in the replacement cost of this unit on July 1, 2021.

**STAFF RECOMMENDATION**

Due to the possible July 1 price increase, we felt the need to address this before the next Public Works Commission meeting. We recommend to council to accept the low bid of \$30,137 from Harris Company and move forward with this project.

**REQUESTED COUNCIL ACTION**

I respectfully request a motion and approval to accept the low bid of \$30,137 from Harris Company for the replacement of the Reznor heater in building 40 of the WWTP.
