FINANCIAL SECTION

CITY OF CANNON FALLS CANNON FALLS, MINNESOTA

FOR THE YEAR ENDED DECEMBER 31, 2020

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council City of Cannon Falls, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Cannon Falls, Minnesota (the City), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis starting on page 17 and the Schedules of Employer's Share of the Net Pension Liability, the Schedule of Changes in Net Pension Liability (Asset) and Related Ratios, the Schedules of Employer's Contributions and the related note disclosures starting on page 78 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section and combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the City of Cannon Falls, Minnesota, (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2020.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$33,298,928 (net position). Of this amount, \$5,913,923 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased \$1,521,397. This increase is due to governmental activities and business-type activities, which increased \$1,135,141 and \$386,256, respectively. The increase from Governmental activities primarily due to an increase in intergovernmental revenues. The business-type activities increased due to increased Disposal fund activity.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$6,674,941, an increase of \$1,080,207 in comparison with the prior year.
- At the end of the current fiscal year, total fund balance for the General fund was \$2,992,330 or 84.3 percent of 2020 General fund budget expenditures.
- The City's outstanding debt decreased by \$2,355,686 during the current fiscal year due to scheduled debt payments.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

The financial statements include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of combining and individual fund financial statements and schedules that further explains and supports the information in the financial statements. Figure 1 shows how the required parts of this annual report are arranged and relate to one another. In addition to these required elements, we have included a section with combining and individual fund financial statements and schedules that provide details about nonmajor governmental funds, which are added together and presented in single columns in the basic financial statements.

Figure 1

Required Components of the City's Annual Financial Report Management's Required Basic Discussion and Financial Supplementary Statements Information Analysis Government-Fund Notes to the wide Financial Financial Financial Statements Statements Statements Summary Detail

Figure 2 summarizes the major features of the City's financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Figure 2
Major Features of the Government-wide and Fund Financial Statements

| | | Fund Financial Statements | | | |
|--|--|--|---|--|--|
| | Government-wide Statements | Governmental Funds | Proprietary Funds | | |
| Scope | Entire City government (except fiduciary funds) and the City's component units | The activities of the City that are not proprietary or fiduciary, such as police, fire and parks | Activities the City operates similar to private businesses, such as the water and sewer system | | |
| Required financial statements | Statement of Net Position Statement of Activities | Balance Sheet Statement of Revenues, Expenditures, and Changes in Fund Balances | Statement of Net Position Statement of Revenues, Expenses and Changes in Net Position Statement of Cash Flows | | |
| Accounting basis and measurement focus | Accrual accounting and economic resources focus | Modified accrual accounting and current financial resources focus | Accrual accounting and economic resources focus | | |
| Type of asset/liability information | All assets and liabilities, both financial and capital, and short-term and long-term | Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included | All assets and liabilities, both financial and capital, and short-term and long- term | | |
| Type of deferred outflows/inflows of resources information | All deferred outflows/inflows of resources, regardless of when cash is received or paid | Only deferred outflows of resources expected to be used up and deferred inflows of resources that come due during the year or soon thereafter; no capital assets included | All deferred outflows/inflows of resources, regardless of when cash is received or paid | | |
| Type of inflow/out flow information | All revenues and expenses during year, regardless of when cash is received or paid | Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter | All revenues and expenses during the year, regardless of when cash is received or paid | | |

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless* of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenue (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, culture and recreation, economic development, miscellaneous, and debt service. The business-type activities of the City include water utility, disposal, ambulance, storm water, recycling, and deputy registrar. The government-wide financial statements include not only the City itself (known as the *primary government*), but also a legally separate Economic Development Authority (the EDA) for which the City is financially accountable. Financial information for this *component unit* is discretely presented from the financial information presented for the primary government itself.

The government-wide financial statements start on page 31 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other State and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact by the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains several individual governmental funds, seven of which are Debt Service funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General and Debt Service funds, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregate presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements or schedules* elsewhere in this report.

The City adopts an annual appropriated budget for its General fund and certain Special Revenue funds. A budgetary comparison statement has been provided for the General fund to demonstrate compliance with its budget.

The basic governmental fund financial statements start on page 36 of this report.

Proprietary Funds: The City maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its water utility, disposal, storm water, ambulance, recycling and deputy registrar.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for each of the enterprise funds which are considered to be major funds of the City. Data from the non-major enterprise funds are combined into a single, aggregate presentation. Individual fund data for each of these non-major enterprise funds is provided in the form of *combining* statements or schedules elsewhere in this report.

The basic proprietary fund financial statements start on page 41 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements start on page 45 of this report.

Required Supplementary Information. In addition to the basic financial statement and accompanying notes, this report also present certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found starting on page 78 of this report.

Other Information. The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented following the notes to the financial statements. Combining and individual fund statements and schedules start on page 86 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$33,298,928 at the close of the most recent fiscal year.

By far, the largest portion of the City's net position is its investment in capital assets (e.g., land, buildings, machinery and equipment), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Cannon Falls' Summary of Net Position

| | Governmental Activities | | | Business-type Activities | | | |
|----------------------------------|-------------------------|---------------|--------------|--------------------------|---------------|--------------|--|
| | | | Increase | | | Increase | |
| | 2020 | 2019 | (Decrease) | 2020 | 2019 | (Decrease) | |
| Assets | | | | | | | |
| Current and other assets | \$ 8,340,344 | \$ 7,258,404 | \$ 1,081,940 | \$ 4,662,871 | \$ 4,884,898 | \$ (222,027) | |
| Capital assets | 15,184,077 | 15,830,526 | (646,449) | 20,777,315 | 21,530,194 | (752,879) | |

| liabilities outstanding | 7,960,716 | 8,647,307 | (686,591) | 7,067,840 | 8,366,977 | (1,299,137) | |
| Other liabilities | 402,871 | 264,662 | 138,209 | 133,044 | 159,011 | (25,967) | |
| Total Liabilities | 8,363,587 | 8,911,969 | (548,382) | 7,200,884 | 8,525,988 | (1,325,104) | |
| Deferred Inflows of Resources | 732,904 | 1,218,607 | (485,703) | 37,943 | 74,839 | (36,896) | |
| Net Position | | | | | | | |
| Net investment in capital assets | 9,591,916 | 9,471,389 | 120,527 | 14,282,056 | 13,783,546 | 498,510 | |
| Restricted | 3,511,033 | 3,260,145 | 250,888 | - | - | - | |
| Unrestricted | 1,961,686 | 1,197,960 | 763,726 | 3,952,237 | 4,064,491 | (112,254) | |
| Total Net Position | \$ 15,064,635 | \$ 13,929,494 | \$ 1,135,141 | \$ 18,234,293 | \$ 17,848,037 | \$ 386,256 | |

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the City as a whole, as well as for its separate governmental and business-type activities.

Statement of Activities. The changes in net position are highlighted below:

City of Cannon Falls' Changes in Net Position

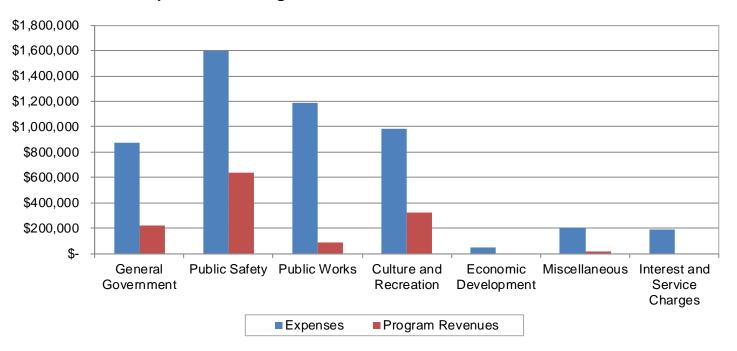

| | Governmental Activities | | Business-type Activities | | | |
|----------------------------------|-------------------------|---------------|--------------------------|-----------------------------|-----------------------------|-------------------------|

| Net Position, December 31 | \$ 15,064,635 | \$ 13,929,494 | \$ 1,135,141 | \$ 18,234,293 | \$ 17,848,037 | \$ 386,256 |

The increase in tax revenue was a result of an increase in an increase in property taxes levied for general purposes.

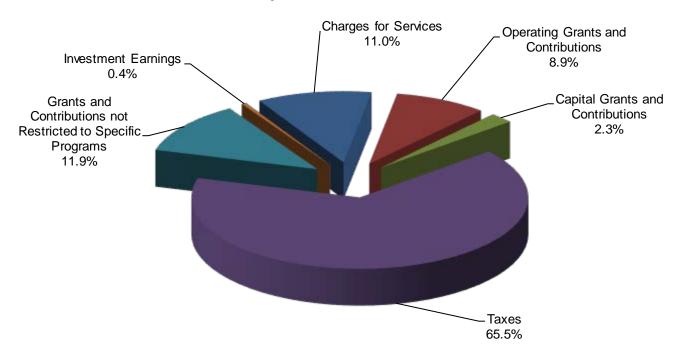

The following graph depicts various governmental activities and shows the revenue and expenses directly related to those activities.

Governmental Activities. Net position in the governmental activities increased \$1,135,141.

Expenses and Program Revenues - Governmental Activities

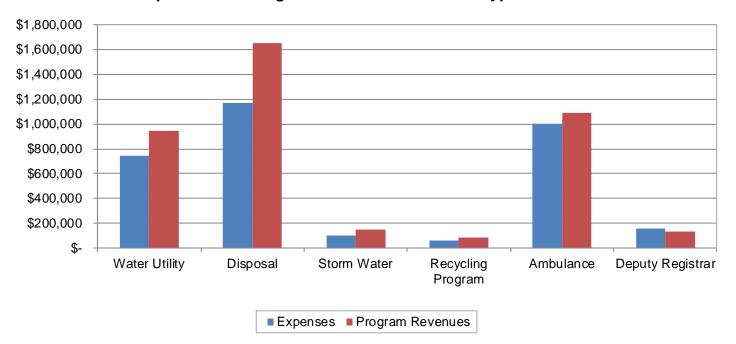

Revenues by Source - Governmental Activities

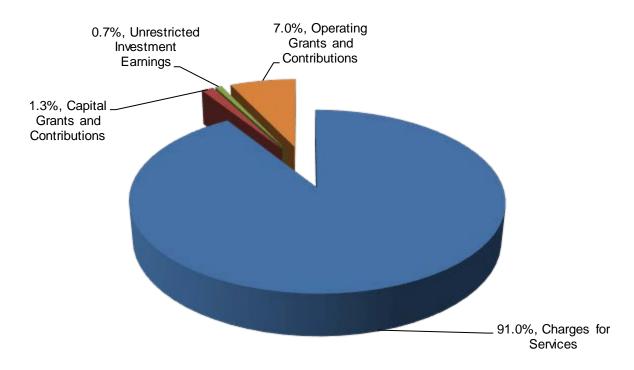

Business-type Activities. Net position in business-type activities increased by \$386,256.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds: The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$6,674,941, an increase of \$1,080,207 in comparison with the prior year. Approximately 41.1 percent of this total amount (\$2,744,143) constitutes *unassigned fund balance*, which is available for spending at the City's discretion. The remainder of fund balance (\$3,930,798) is not available for new spending because it is either 1) nonspendable (\$47,702) 2) restricted (\$2,626,029), 3) committed (\$876,183), or 4) assigned (\$380,884). For further classification refer to Note 3F on page 64 of this report.

Activity in the City's major funds is discussed below:

| | Fund Balance December 31, | | | | | Increase | |
|---|---------------------------|----------------|-----|---------------|-----------|------------|--|
| Major Funds | | 2020 | | 2019 | <u>(D</u> | ecrease) | |
| General | \$ | 2,992,330 | \$ | 2,585,657 | \$ | 406,673 | |
| Fund balance increased \$406,673. This was due to a positive re City receiving CARES funding in 2020. | evenue | variance inter | gov | ernmental rev | 'enue | due to the | |
| Debt Service | \$ | 2,282,256 | \$ | 1,887,226 | \$ | 395,030 | |

The Debt Service funds increased due to transfers in of \$469,900.

Proprietary Funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the enterprise funds at the end of the year amounted to \$3,952,237.

General Fund Budgetary Highlights

The City's General fund budget was not amended during 2020. Compared to the final budget, revenues were over budget by \$369,401 and expenditures were under budget by \$37,272.

- The largest revenue variance was from intergovernmental revenues primarily a result of proceeds from state disaster aid. The revenue amount was \$985,167 which was over budget by \$241,856
- The largest variance in expenditures was in the public works function where expenditures were under budget by \$178,289. This was due to less than expected costs related to the cannon valley trail, parks and tree maintenance.

Capital Asset and Debt Administration

Capital Assets: The City's investment in capital assets for its governmental and business type activities as of December 31, 2020, amounts to \$35,961,392 (net of accumulated depreciation). This investment in capital assets includes land, structures, improvements, machinery and equipment, park facilities, roads, highways and bridges.

Additional information on the City's capital assets can be found in Note 3C starting on page 57 of this report.

City of Cannon Falls' Capital Assets (Net of Depreciation)

| | Governmental Activities | | | Business-type Activities | | |

| Vehicles | 920,893 | 989,996 | (69,103) | 452,702 | 302,584 | 150,118 |
| Tatal | Ф 4 E 404 077 | Ф 4 F 000 F00 | Ф (C4C 440) | Ф 00 777 04 г | Ф 04 F00 404 | Ф (ZEO 0ZO) |
| Total | \$ 15,184,077 | \$ 15,830,526 | \$ (646,449) | \$ 20,777,315 | \$ 21,530,194 | \$ (752,879) |

Long-term Debt. At the end of the current fiscal year, the City had total bonded and capital lease debt outstanding of \$12,112,981. While all of the City's bonds have revenue streams, all are backed by the full faith and credit of the City.

City of Cannon Falls' Outstanding Debt

| | Go | Governmental Activities | | | Business-type Activities | | | |
|---|--------------|-------------------------|------------------------|--------------|--------------------------|------------------------|--|--|
| | 2020 | 2019 | Increase (Decrease) | 2020 | 2019 | Increase (Decrease) | | |
| Capital Lease Payable General Obligation | \$ - | \$ 8,378 | \$ (8,378) | \$ - | \$ 8,378 | \$ (8,378) | | |
| Revenue Bonds General Obligation | 5,250,000 | 6,190,000 | (940,000) | 6,537,981 | 7,902,911 | (1,364,930) | | |
| Equipment Certificates | 325,000 | 359,000 | (34,000) | | | | | |
| Total | \$ 5,575,000 | \$ 6,557,378 | \$ (982,378) | \$ 6,537,981 | \$ 7,911,289 | \$ (1,373,308) | | |

Minnesota statutes limit the amount of net general obligation debt a City may issue to 3 percent of the market value of taxable property within the City. Net debt is debt payable solely from ad valorem taxes. The current debt limitation for the City is in excess of the City's outstanding general obligation debt.

Additional information on the City's long-term debt can be found in Note 3E starting on page 60 of this report.

Economic Factors and Next Year's Budgets and Rates

- Property values appear to have stabilized and the City is continuing to see Commercial/Industrial growth with new construction, expansions and remodeling of existing structures.
- The City will continue to monitor utility fees to ensure that charges are sufficient to cover costs in the Water and Disposal funds.
- The City will continue to update and monitor its Financial Management Plan to ensure that the numerous scheduled capital projects can be completed as budgeted.
- The City will continue to investigate grant opportunities or seek legislative funding for capital projects to minimize the financial impact on City budgets and utility rates.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Assistant City Administrator, City of Cannon Falls, 918 River Road, Cannon Falls, MN 55009.

Reconciliation of the Statement of
Revenues, Expenditures and Changes in Fund Balances
to the Statement of Activities
Governmental Funds
For the Year Ended December 31, 2020

Amounts reported for governmental activities in the statement of activities are different because

| Net Change in Fund Balances - Governmental Funds | \$ | 1,080,207 |
|---|------|-----------------------|
| Capital outlays and sales are reported in governmental funds as expenditures and proceeds. However, in the statement of activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense and the proceeds are reported as reductions of net position and gains or losses on sales. | | |
| Capital outlays | | 100,307 |
| Depreciation expense | | (781,586) |
| Capital assets contributed from developer | | 46,500 |
| Governmental funds report a gain (loss) on sale of capital assets to the extent of cash exchanged, wh disposition of the assets book value is included in the total gain (loss) in the statement of activities. | erea | as the |
| Disposals | | (11,670) |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. | | |
| Principal payments | | 2,524,000 |
| Capital lease principal payments | | 8,378 |
| Bonds issued | | (1,550,000) |
| Premium on bonds issued | | (215,464) |
| Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. | | 25,133 |
| Long-term pension activity is not reported in governmental funds. | | |
| Pension expense | | 73,032 |
| Direct aid contributions | | 13,620 |
| Certain revenues are recognized as soon as earned. Under the modified accrual basis of accounting, certain revenues cannot be recognized until they are available to liquidate liabilities of the current pe | | I. |
| Property taxes Special assessments | | (22,019) (190,922) |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. | | |
| Compensated absences | | 35,625 |
| | • | 4 405 444 |

Note 1: Summary of Significant Accounting Policies

A. Reporting Entity

The City of Cannon Falls, Minnesota (the City), operates under a home rule charter form of government as defined in the State of Minnesota statues, which is termed the "Mayor-City Council Plan." The City is governed by an elected Mayor and a six-member City Council. The City Council exercises legislative authority and determines all matters of policy. The City Council appoints personnel responsible for the proper administration of all affairs relating to the City.

The City has considered all potential units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the primary government to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the primary government. As required by accounting principles generally accepted in the United States of America, these financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Component units for which the City has been determined to be financially accountable can be blended with the primary government or be included as a discrete presentation. Included in the City's reporting entity, based upon the application of these criteria, is the following discretely presented component unit. The discretely presented component unit is reported in a separate column in the government-wide financial statements.

Economic Development Authority. The Economic Development Authority (EDA) of the City was created pursuant to Minnesota statutes 469.090 through 469.108 to carry out economic and industrial development and redevelopment consistent with policies established by the City Council. The EDA is governed by five board members, two of which are City Council members and three are at-large members. The City Council appoints the EDA governing board and approves tax levies. The City does not have fiduciary responsibility for the EDA. It is this criterion that results in the EDA being reported as a discretely presented component unit. The EDA does not prepare separate financial statements. The EDA fund financial statements begin on page 116.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and the proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Note 1: Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting.* Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, grants, entitlement and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the tax is levied. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are also recorded as unearned revenue.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The following major governmental funds meet the criteria described above:

The *General* fund is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund.

The *Debt Service* fund is used for the servicing of governmental long-term debt not being financed by the proprietary fund.

Note 1: Summary of Significant Accounting Policies (Continued)

The City reports the following major proprietary funds:

The Water Utility fund is used for the activities of the water distribution system the City maintains.

The Disposal fund is used for the activities of the City's sewage collection operations.

The Ambulance fund is used for the activities related to the ambulance and emergency services the City provides.

As a general rule, the effect of interfund activity has been eliminated from government-wide financial statements. Exceptions to this general rule are charges between the City's water and disposal function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The proprietary funds' portion in the government-wide cash and temporary investments pool is considered to be cash and cash equivalents for purposes of the Statement of Cash Flows.

Cash balances from all funds are pooled and invested, to the extent available, in certificates of deposit and other authorized investments. Earnings from such investments are allocated on the basis of applicable participation by each of the funds.

The City may also invest idle funds as authorized by Minnesota statutes and the City's investment policy as follows:

- 1. Direct obligations or obligations guaranteed by the United States or its agencies.
- 2. Shares of investment companies registered under the Federal Investment Company Act of 1940 and whose only investments are in securities in (1) above.
- 3. Minnesota Municipal Money Market fund and certificates of deposit with preference to local financial institutions.
- 4. Commercial paper issued by United States banks, corporations, or their Canadian subsidiaries, of highest quality, and maturing in 270 days or less rated by at least two of the three rating agencies. (Moody's, A-1/ Standard and Poor's, P-1/ Fitches, F-1).

It is the City's policy to invest in a manner which seeks to insure the preservation of capital. Safety of principal is the foremost objective, but liquidity and yield are also important considerations. It is essential that cash is available when needed, therefore the goal is to maximize yield while matching maturity dates with expenditure needs. All participating in the investment process shall seek to act responsibly as custodians of the public trust.

It is the policy of the City to invest available fund at the highest rates attainable at the time of the investment, however giving preference to local financial institutions where the highest local bid is not more than .25 percent less than the non-local investment.

Note 1: Summary of Significant Accounting Policies (Continued)

Investments may be held in safekeeping with any federal reserve bank, any bank authorized under laws of the United States or any state to exercise corporate trust powers, including but not limited to the bank from which it is purchased. The City's ownership of all securities shall be evidenced by a written acknowledge identifying the securities by name of issue, maturity date, interest rate and serial number or other distinguishing mark.

The Minnesota Municipal Money Market Fund is regulated by Minnesota statutes and the Board of Directors of the League of Minnesota Cities and is an external investment pool not registered with the Securities Exchange Commission (SEC) that follows the regulatory rules of the SEC. In accordance with GASB Statement No. 79, the City's investment in this pool is valued at amortized cost, which approximates fair value. There are no restrictions or limitations on withdrawals from the 4M Liquid Asset Fund. Investments in the 4M Plus must be deposited for a minimum of 14 calendar days. Withdrawals prior to the 14-day restriction period will be subject to a penalty equal to seven days interest on the amount withdrawn. Seven days' notice of redemption is required for withdrawals of investments in the 4M Term Series withdrawn prior to the maturity date of that series. A penalty could be assessed as necessary to recoup the Series for any charges, losses, and other costs attributable to the early redemption. Financial statements of the 4M Fund can be obtained by contracting RBC Global Management at 100 South Fifth Street, Suite 2300, Minneapolis, MN 55402-1240.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The City has the following recurring fair value measurements as of December 31, 2020:

Negotiable certificates of deposits of \$591,417 are values using a matrix pricing model (Level 2 inputs).

Accounts Receivable

Accounts receivable include amounts billed for services provided before year end. Unbilled utility enterprise fund receivables are also included for services provided in 2020. The City annually certifies delinquent water and disposal accounts to the County for collection in the following year. Therefore, there has been no allowance for doubtful accounts established for water and disposal funds. The Ambulance fund has an allowance for uncollectible accounts set at 25 percent of the outstanding balance. This amount totaled \$151,530 as of December 31, 2020.

Property Taxes

The City Council annually adopts a tax levy in December and certifies it to the County for collection the following year. The County is responsible for collecting all property taxes for the City. These taxes attach an enforceable lien on taxable property within the City on January 1 and are payable by the property owners in two installments. The taxes are collected by the County Treasurer and tax settlements are made to the City during January, July and December each year.

Delinquent taxes receivable include the past six years' uncollected taxes. Delinquent taxes receivable have been offset by a deferred inflow of resources for delinquent taxes not received within 60 days after year end in the governmental fund financial statements.

Special Assessments

Special assessments represent the financing for public improvements paid for by benefiting property owners. These assessments are recorded as receivables upon certification to the County. Special assessments are recognized as revenue when they are received in cash or within 60 days after year end and when the following years levy is certified. All other governmental special assessments receivable not received within 60 days after year end are offset by a deferred inflow of resources in the fund financial statements.

Note 1: Summary of Significant Accounting Policies (Continued)

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Inventories and Prepaid Items

Inventories of materials and supplies are recorded at cost, which approximates market, using the first-in, first out (FIFO) method. Inventories consist of expendable supplies held for consumption. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items and are recorded as prepaid items. The City uses the consumption method to account for all prepaid items.

Land Held for Resale

The City acquires properties for redevelopment purposes. These properties are reported at their net realizable value in the financial statements. Any costs incurred that are above a property's net realizable value are reported as expenditures of the current period. The balance of land held for resale is offset with nonspendable or restricted fund balance to indicate that it is not available for appropriation.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the City as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years for equipment and \$1,000 for land. The City reports infrastructure assets on a network and subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements regardless of their amount.

In the case of initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the City chose to include items dating back to June 30, 1980. The City was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the City constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations, the City values these capital assets at the acquisition value of the item at the date of its donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Note 1: Summary of Significant Accounting Policies (Continued)

Property, plant and equipment of the City are depreciated using the straight-line method over the following estimated useful lives:

| Assets | Useful Lives in Years |
|------------------------------------|--------------------------|
| Land Improvements | 5 to 30 |
| Buildings and Improvements | 15 to 40 |
| System Improvements/Infrastructure | 15 to 50 |
| Machinery and Equipment | 3 to 20 |
| Vehicles | 3 to 15 |

Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has only one item that qualifies for reporting in this category. Accordingly, the item, deferred pension resources, is reported only in the statements of net position. This item results from actuarial calculations and current year pension contributions made subsequent to the measurement date.

Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The General fund is typically used to liquidate the governmental net pension liability.

The total pension expense for the GERP, PEPFP and Cannon Falls Fire Relief Association is as follows:

| | | Public Employ | yees R | etirement | | | | |
|-----------------|----|-----------------|----------|------------|-------------|-----------|-------|-----------|
| | A | ssociation of N | Minnes (| ota (PERA) | Fi | re Relief | - | Total All |
| | | GERP | PEPFP | | Association | | Plans | |
| Pension Expense | \$ | 161,808 | \$ | 120,077 | \$ | 90,248 | \$ | 372,133 |

Compensated Absences

It is the City's policy to permit employees to accumulate a limited amount of earned but unused vacation and sick leave, which is paid to the employee upon separation. In governmental fund types, the cost of these benefits is recognized when payments are made to the employees. Employees can accumulate to a total of 320 hours of vacation and 960 hours of sick leave. Proprietary fund types accrue vacation and sick leave in the period it is earned. A liability of \$342,619 represents accrued vacation and sick leave unused at year end for the governmental and business-type activities. The General fund is typically used to liquidate governmental fund compensated absences.

Note 1: Summary of Significant Accounting Policies (Continued)

Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. The recognition of bond premiums and discounts are delayed and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as an expense in the period incurred.

In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has only one type of item, which arises only under a modified accrual basis of accounting that qualifies as needing to be reported in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from three sources: property taxes, special assessments and contract for deed. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

The City has an additional item which qualifies for reporting in this category. The item, deferred pension resources, is reported only in the statements of net position and results from actuarial calculations.

Fund Balance

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources reported in the governmental funds. These classifications are defined as follows:

Nonspendable - Amounts that cannot be spent because they are not in spendable form, such as prepaid items.

Restricted - Amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed - Amounts constrained for specific purposes that are internally imposed by formal action (resolution) of the City Council, which is the City's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the City Council modifies or rescinds the commitment by resolution.

Assigned - Amounts constrained for specific purposes that are internally imposed. In governmental funds other than the General fund, assigned fund balance represents all remaining amounts that are not classified as nonspendable and are neither restricted nor committed. In the General fund, assigned amounts represent intended uses established by the City Council itself or by an official to which the governing body delegates the authority. The City Council has adopted a fund balance policy which delegates the authority to assign amounts for specific purposes to the City Administrator or Finance Director.

Unassigned - The residual classification for the General fund and also negative residual amounts in other funds.

The City considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

Note 1: Summary of Significant Accounting Policies (Continued)

The City has formally adopted a fund balance policy for the General fund. The City's policy is to maintain a minimum unassigned fund balance of 40-50 percent of budgeted operating expenditures for cash-flow timing needs.

Net Position

In the government-wide financial statements, net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position is displayed in three components:

- a. Net investment in capital assets Consists of capital assets, net of accumulated depreciation reduced by any outstanding debt attributable to acquire capital assets.
- b. Restricted net position Consists of net position balances restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.
- c. Unrestricted net position All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets".

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Note 2: Stewardship, Compliance and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General and special revenue. All annual appropriations lapse at fiscal yearend. The City does not use encumbrance accounting.

In August of each year, all departments of the City submit requests for appropriations to the City Administrator so that a budget may be prepared. Before September 30th, the proposed budget is presented to the City Council for review. The City Council adopts a preliminary maximum budget. Truth-in-taxation notices are mailed out to residents by the County. The City Council holds public hearings and adopts a budget and tax levy in December.

The appropriated budget is prepared by fund, function and department. The City's Administrator may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the City Council. The legal level of budgetary control is the department level. There were no budget amendments made during 2020.

B. Excess of Expenditures Over Appropriations

For the year ended December 31, 2020, expenditures exceeded appropriations in the following funds:

| | | | | | E | cess of |
|--------------------------------|----|----------|----|---------|------|------------|
| | | Final | | | Exp | enditures |
| | Е | Budgeted | | Actual | | Over |
| Fund | A | Amounts | A | Amounts | Appı | opriations |
| Component Unit | | | | | | |
| Economic Development fund | \$ | 113,500 | \$ | 168,610 | \$ | 55,110 |
| Industrial Revolving Loan fund | | 7,000 | | 90,524 | | 83,524 |

These over-expenditures were funded by revenues in excess of budget and available fund balance.

Note 2: Stewardship, Compliance and Accountability (Continued)

C. Deficit Fund Equity

The following funds had fund equity deficits at December 31, 2020:

| Fund | Amount |
|---|-----------|
| Capital Project | |
| 3rd Street Bridge | \$ 20,580 |
| TIF 2-6.2 | 145 |
| TIF 2-8 | 3,880 |
| 2016 Street Improvement Westside Phase II | 20,230 |
| Alexander Court | 161,895 |
| Enterprise Fund | |
| Deputy Registrar | 35,756 |

These deficits will be eliminated with future transfers and revenue sources.

Note 3: Detailed Notes on All Funds

A. Deposits and Investments

Cash balances of the City's funds are combined (pooled) and invested to the extent available in various investments authorized by Minnesota statutes. Each fund's portion of this pool (or pools) is displayed on the financial statements as "cash and investments." For purposes of identifying the risk of investing public funds, the balances are categorized as follows:

Deposits

Custodial credit risk for deposits and investments is the risk that in the event of a bank failure, the City's deposits and investments may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. In accordance with Minnesota statutes and as authorized by the City Council, the City maintains deposits at those depository banks, all of which are members of the Federal Reserve System.

Minnesota statutes require that all City deposits be protected by insurance, surety bond or collateral. The fair value of collateral pledged must equal 110 percent of the deposits not covered by insurance or bonds, which the exception of irrevocable standby letters of credit issued by Federal Home Loan Banks as this type of collateral only requires collateral pledged equal to 100 percent of the deposits not covered by insurance or bonds.

Note 3: Detailed Notes on All Funds (Continued)

Authorized collateral in lieu of a corporate surety bond includes:

- United States government Treasury bills, Treasury notes, Treasury bonds;
- Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;
- General obligation securities of any state or local government with taxing powers which is rated "A" or better by a national bond rating service, or revenue obligation securities of any state or local government with taxing powers which is rated "AA" or better by a national bond rating service;
- General obligation securities of a local government with taxing powers may be pledged as collateral against funds deposited by that same local government entity;
- Irrevocable standby letters of credit issued by Federal Home Loan Banks to a municipality accompanied by
 written evidence that the bank's public debt is rated "AA" or better by Moody's Investors Service, Inc., or Standard
 & Poor's Corporation; and
- Time deposits that are fully insured by any federal agency.

Minnesota statutes require that all collateral shall be placed in safekeeping in a restricted account at a Federal Reserve Bank, or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The selection should be approved by the City.

At year end, the City's carrying amount of deposits was \$6,017,680 and the bank balance was \$6,195,527. The bank balance was covered by federal depository insurance totaling \$6,195,527.

Investments

Investments are carried at fair value. Investment and dividend income are recognized as revenue when earned. The investments of the City are subject to the following risks:

- Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.
 Ratings are provided by various credit rating agencies and where applicable, indicate associated credit risk.
 Minnesota statutes and the City's investment policy limit the City's investments.
- Custodial Credit Risk. Custodial credit risk for investments is the risk that in the event of the failure of the
 counterparty to a transaction, a government will not be able to recover the value of an investment or collateral
 securities that are in the possession of an outside party. The City is exposed to custodial credit risk in relation to
 the CDs invested in the CDARS program.
- Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a
 government's investment in a single issuer. The City places no limit on the amount that may be invested in any
 one issuer.
- Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's investment policy limits its exposure to interest rate risk.

Note 3: Detailed Notes on All Funds (Continued)

At year end, the City's investment balances were as follows:

| | Credit | Segmented | | | | | | | |
|--------------------------------|------------|----------------------|--------------|---------|---------|---------|------------|----------|---|
| | Quality/ | Time | | | Fair Va | alue I | Measuremer | nt Using | g |
| Types of Investments | Ratings (1 |) Distribution (2) | Amount | Level 1 | | Level 2 | | Level 3 | |
| Pooled Investments at Amortize | d Costs | | _ | | | | _ | | |

B. Loans Receivable

Economic Development Authority

On November 29, 2012, the EDA loaned \$150,000 to ArtOrg at the rate of 3 percent per year. The loan is due November 29, 2017. Monthly payments of \$1,036 are due beginning December 29, 2012. The outstanding balance as of December 31, 2020 was \$80,001.

On July 13, 2016, the EDA loaned \$150,000 to Tillion Brewing Company at the rate of 3 percent a year. The loan is due on July 13, 2026. Monthly payments of \$1,449 are due beginning August 13, 2016. The outstanding balance at December 31, 2020 was \$92,460.

On December 12, 2018, the EDA loaned \$25,000 to Aqualand Aquarium Center, Inc. at the rate of 3 percent a year. The loan is due December 12, 2023. Monthly payments of \$138 are due beginning January 12, 2019. \$5,000 of the loan will not be subject to interest and will be forgiven provided that the borrower is still operating in Cannon Falls. The outstanding balance at December 31, 2020 was \$22,824.

On September 19, 2018, the EDA loaned \$50,000 to Interstate Building Supply at the rate of 3 percent a year. The loan is due October 19, 2023. Monthly payments of \$932 are due beginning October 19, 2018. \$5,000 of the loan will not be subject to interest and will be forgiven provided that the borrower is still operating in Cannon Falls. The outstanding balance at December 31, 2020 was \$44,470

On January 15, 2019 the EDA loaned \$125,000 to Raw Bistro at the rate of 3 percent a year. The loan is due on January 15, 2024. Monthly payments of \$829 are due beginning February 15, 2019. The final payment will be a balloon payment of \$86,651 on January 15, 2024. \$5,000 of the loan will not be subject to interest and will be forgiven provided that the borrower is still operating in Cannon Falls. The outstanding balance at December 31, 2020 was \$111,945.

On August 5, 2019 the EDA loaned \$75,000 to Keith Meyers at the rate of 3 percent a year. The loan is due on July 18, 2024. Monthly payments of \$483 are due beginning on August 18, 2019. \$5,000 of the loan will not be subject to interest and will be forgiven provided that the borrower is still operating in Cannon Falls. The outstanding balance at December 31, 2020 was \$69,661.

On July 31, 2020 the EDA loaned \$7,000 Jameson Hanson and Bryten Hansen at the rate of 3 percent. The loan balance is due on August 1, 2021. The entire amount of \$7,000 plus interest is due on August 1, 2021. The outstanding balance as of December 31, 2020 was \$5,000.

The total net loan receivable balance as of December 31, 2020 was \$406,361 after taking into account \$20,000 worth of allowances described above.

| Total | \$ | 469,900 | \$ | 141,975 | \$ | 7,325 | \$ | 30,200 | \$ | 649,400 | |

During the year, transfers are used to 1) move General fund resources to provide funds for future capital purchases and 2) move enterprise fund resources to debt service funds for debt service requirements.

Note 3: Detailed Notes on All Funds (Continued)

E. Long-term Debt

General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for general government activities. In addition, bonds have been issued to refund general obligation bonds.

General obligation bonds are direct obligations and pledge the full faith and credit of the government. General obligation bonds currently outstanding are as follows:

General Obligation Improvement Bonds

The following bonds were issued to finance various improvements and will be repaid from special assessments levied on the properties benefiting from the improvements and ad valorem tax levies. All special assessment debt is backed by the full faith and credit of the City. Each year the combined assessment and tax levy equals 105 percent of the amount required for debt service. The excess of 5 percent is to cover any delinquencies in tax or assessment payments.

Note 4: Defined Benefit Pension Plans - Statewide

A. Plan Description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with *Minnesota statutes*, chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code

General Employees Retirement Plan

All full-time and certain part-time employees of the City are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

Public Employees Police and Fire Plan

The Police and Fire Plan, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the Police and Fire Plan also covers police officers and firefighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA.

B. Benefits Provided

PERA provides retirement, disability and death benefits. Benefit provisions are established by Minnesota statute and can only be modified by the state legislature.

Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

General Employee Plan Benefits

General Employee Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989 receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7 percent for average salary for all years of service. For members hired prior to July 1, 1989 a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989 normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are p[provided to benefit recipients each January. Beginning in 2019, the postretirement increase will be equal to 50 percent of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

Police and Fire Plan Benefits

Benefits for the Police and Fire Plan members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50 percent after five years up to 100 percent after ten years of credited service. Benefits for Police and Fire Plan members first hired after June 30, 2014 vest on a prorated basis from 50 percent after ten years up to 100 percent after twenty years of credited service. The annuity accrual rate is 3.0 percent of average salary for each year of service. For Police and Fire Plan members who were first haired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

Benefit increases are provided to benefit recipients each January. Beginning in 2019, the postretirement increase will be fixed at 1 percent. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase-will receive the full increase. For recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

C. Contributions

Minnesota statutes, chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

General Employees Fund Contributions

Plan members were required to contribute 6.50 percent of their annual covered salary and the City was required to contribute 7.50 percent for Coordinated Plan members in 2020. The City's contributions to the GERF for the year ending December 31, 2020, 2019 and 2018 were \$150,778, \$148,746 and \$140,461, respectively. The City's contributions were equal to the required contributions for each year as set by state statute.

Police and Fire Fund Contributions

Police and Fire member's contribution rates increased from 11.30 percent of pay to 11.80 percent and employer rates increased from 16.95 percent to 17.70 percent on January 1, 2020. The City's contributions to the Police and Fire Fund for the years ending December 31, 2020, 2019 and 2018 were \$108,059, \$94,884 and \$87,838, respectively. The City's contributions were equal to the contractually required contributions for each year as set by state statute.

D. Pension Costs

General Employees Fund Pension Costs

At December 31, 2020, the City reported a liability of \$1,630,764 for its proportionate share of the General Employee Fund's net pension liability. The City's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million. The State of Minnesota is considered a non-employer contributing entity and the State's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the City totaled \$50,397. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2019 through June 30, 2020 relative to the total employer contributions received from all of PERA's participating employers. The City's proportionate share was 0.0272 percent which was a decrease of 0.0012 percent from June 30, 2019.

City's Proportionate Share of the Net Pension Liability
State of Minnesota's Proportionate Share of the Net Pension
Liability Associated with the City

\$ 1,630,764

50,397

Total \$ 1,681,161

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

For the year ended December 31, 2020, the City recognized pension expense of \$157,422 for its proportionate share of the General Employees Plan's pension expense. In addition, the City recognized an additional \$4,386 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the General Employees Fund.

At December 31, 2020, the City reported its proportionate share of the General Employees Plan's deferred outflows of resources and deferred inflows of resources, related to pensions from the following sources:

| | C | Deferred Outflows of Resources | | eferred nflows Resources |
|--------------------------------------|----|--------------------------------------|----|--------------------------------|
| Differences Between Expected and | | | | |
| Actual Experience | \$ | 18,517 | \$ | 6,513 |
| Changes in Actuarial Assumptions | | 1,454 | | 63,661 |
| Net Difference Between Projected and | | | | |
| Actual Earnings on Plan Investments | | 19,727 | | - |
| Changes in Proportion | | 9,661 | | 77,616 |
| Contributions to PERA Subsequent | | | | |
| to the Measurement Date | | 79,011 | | |
| Total | | 128,370 | \$ | 147,790 |

The \$79,011 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| 2021 | \$ (116,209) |
|------|-----------------|
| 2022 | (34,122) |
| 2023 | 12,500 |
| 2024 | 39,400 |

Police and Fire Fund Pension Costs

At December 31, 2020, the City reported a liability of \$736,820 for its proportionate share of the Police and Fire Fund's net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2019 through June 30, 2020 relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2020, the City's proportionate share was 0.0559 percent which was a decrease of 0.0021 percent from its proportionate share measured as of June 30, 2019.

The State of Minnesota also contributed \$13.5 million to the Police and Fire Fund in the plan fiscal year ended June 30, 2020. The contribution consisted of \$4.5 million in direct state aid that does meet the definition of a special funding situation and \$9.0 million in fire state aid that does not meet the definition of a special funding situation. The \$4.5 million direct state was paid on October 1, 2019. Thereafter, by October 1 of each year, the state will pay \$9 million to the Police and Fire Fund until full funding is reached or July 1, 2048, whichever is earlier. The \$9 million in fire state aid will continue until the fund is 90 percent funded, or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90 percent funded, whichever occurs later.

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

As a result, the State of Minnesota is included as a non-employer contributing entity in the Police and Fire Retirement Plan Schedule of Employer Allocations and Schedule of Pension Amounts by Employer, Current Reporting Period Only (pension allocation schedules) for the \$4.5 million in direct state aid. Police and Fire Plan employers need to recognize their proportionate share of the State of Minnesota's pension expense (and grant revenue) under GASB 68 special funding situation accounting and financial reporting requirements. For the year ended December 31, 2020, the City recognized pension expense of \$114,729 for its proportionate share of the Police and Fire Plan's pension expense. The City also recognized \$5,348 for the year ended December 31, 2020, as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$4.5 million to the Police and Fire Fund.

The State of Minnesota is not included as a non-employer contributing entity in the Police and Fire Pension Plan pension allocation schedules for the \$9 million in fire state aid. The City also recognized \$5,348 for the year ended December 31, 2020 as revenue and an offsetting reduction of net pension liability for its proportionate share of the State of Minnesota's on-behalf contributions to the Police and Fire Fund.

At December 31, 2020, the City reported its proportionate share of Police and Fire Plan's deferred outflows of resources and deferred inflows of resources, from the following sources:

| Differences Between Expected and | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|--------------------------------|-------------------------------------|
| Differences Between Expected and Actual Experience | \$ 33,359 | \$ 48,814 |
| Changes in Actuarial Assumptions | 278,289 | 482,187 |
| Net Difference Between Projected and | | |
| Actual Earnings on Plan Investments | 29,190 | - |
| Changes in Proportion | 79,254 | 35,681 |
| Contributions to PERA Subsequent | | |
| to the Measurement Date | 53,969 | |
| Total | \$ 474,061 | \$ 566,682 |

The \$53,969 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| 2021 | \$ (31,701) |
|------------|-------------|
| 2022 | (178,816) |
| 2023 | 38,629 |
| 2024 | 36,716 |
| 2025 | (5,418) |
| Thereafter | (6,000) |

E. Actuarial Assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

| Inflation | 2.50% per year |
|------------------------------|----------------|
| Active Member Payroll Growth | 3.25% per year |
| Investment Rate of Return | 7.50% |

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25 percent per year for General Employees Plan and 1.0 percent per year for Police and Fire Plan.

Actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2019. The assumption changes were adopted by the Board and become effective with the July 1, 2020 actuarial valuation. The most recent four-year experience study for the Police and Fire Plan was completed in 2020. The recommended assumptions for that plan were adopted by the Board and will be effective with the July 1, 2021 actuarial valuations if approved by the Legislature

The following changes in actuarial assumptions occurred in 2020:

General Employees Fund

Changes in Actuarial Assumptions

- The price inflation assumption was decreased from 2.50% to 2.25%.
- The payroll growth assumption was decreased from 3.25% to 3.00%.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new
 rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher
 thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change
 results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.
- The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

General Employees Fund (Continued)

Changes in Plan Provisions

Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through
 December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

Police and Fire Fund

Changes in Actuarial Assumptions

The mortality projection scale was changed from MP-2018 to MP-2019.

Changes in Plan Provisions

• There have been no changes since the prior valuation.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation | Long-term Expected Real Rate of Return |
|--------------------------------------|-------------------|--|
| Domestic Stocks | 35.5 % | 5.10 % |
| Alternative Assets (Private Markets) | 25.0 | 5.90 |
| Bonds (Fixed Income) | 20.0 | 0.75 |
| International Stocks | 17.5 | 5.30 |
| Cash | 2.0 | - |
| Total | 100.00_ % | |

F. Discount Rate

The discount rate used to measure the total pension liability in 2020 was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund and the Police and Fire Fund were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

G. Pension Liability Sensitivity

The following presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

| | City Proportionate Share of NPL | | | | | | |
|------------------------|---------------------------------|-----|--------------|-------------------------------|---------|--|--|
| | Percent ease (6.50%) | Cur | rent (7.50%) | 1 Percent Increase (8.50%) | | | |
| General Employees Fund | \$ 2,613,550 | \$ | 1,630,764 | \$ | 820,045 | | |
| Police and Fire Fund | 1,468,592 | | 736,820 | | 131,410 | | |

H. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

Note 5: Defined Benefit Pension Plans - Fire Relief Association

A. Plan Description

All members of the Cannon Falls Fire Department (the Department) are covered by a defined benefit plan administered by the Cannon Falls Fire Department Relief Association (the Association). As of December 31, 2019, the plan covered 30 active firefighters and 6 vested terminated fire fighters whose pension benefits are deferred. The plan is a single employer retirement plan and is established and administered in accordance with Minnesota statute, chapter 69.

The Association maintains a separate Special fund to accumulate assets to fund the retirement benefits earned by the Department's membership. Funding for the Association is derived from an insurance premium tax in accordance with the Volunteer Firefighter's Relief Association Financing Guidelines Act of 1971 (chapter 261 as amended by chapter 509 of Minnesota statutes 1980). Funds are also derived from investment income.

B. Benefits Provided

A firefighter who completes at least 20 years as an active member of the Department is entitled, after age 50, to a full-service pension upon retirement.

The bylaws of the Association also provide for an early vested service pension for a retiring member who has completed a minimum of 10 years of service.

The financial requirements of the Special fund are determined in accordance with section 69.772 of the Minnesota statutes, which requires the payment of pension benefits in a lump sum or optionally in annual installments. The benefits are payable after age 50, 20 years of service and 10 years of Association membership or upon death.

Note 5: Defined Benefit Pension Plans - Fire Relief Association (Continued)

C. Contributions

Minnesota statutes, chapters 424 and 424A authorize pension benefits for volunteer fire relief associations. The plan is funded by fire state aid, investment earnings and, if necessary, employer contributions as specified in Minnesota statutes and voluntary City contributions (if applicable). The State of Minnesota contributed \$55,398 in fire state aid to the plan on behalf of the Cannon Falls Fire Department for the year ended December 31, 2019 which was recorded as a revenue. Required employer contributions are calculated annually based on statutory provisions. The City's statutorily-required contributions to the plan for the year ended December 31, 2020 were \$55,398. The City made no voluntary contributions to the plan. Furthermore, the firefighter has no obligation to contribute to the plan.

D. Pension Costs

At December 31, 2020, the City reported a net pension liability (asset) of \$(86,431) for the plan. The net pension asset was measured as of December 31, 2019. The total pension liability used to calculate the net pension asset in accordance with GASB 68 was determined by Vanlwaarden applying an actuarial formula to specific census data certified by the Department as of December 31, 2019. The following table presents the changes in net pension liability (asset) during the year:

| | Total Plan Pension Fiduciary Liability Net Position (a) (b) | | Net Pension Liability (Asset) (a-b) | | |
|---------------------------------------|---|----|-------------------------------------|----|-----------|
| Beginning Balance January 1, 2020 | \$ 722,919 | \$ | 752,888 | \$ | (29,969) |
| Changes for the Year | | | | | |
| Service cost | 36,907 | | - | | 36,907 |
| Interest on pension liability (asset) | 39,059 | | - | | 39,059 |
| Actuarial experience (gains)/losses | - | | - | | - |
| Changes of assumptions | - | | - | | - |
| Change of benefit terms | 48,672 | | - | | 48,672 |
| Net investment income | - | | 126,837 | | (126,837) |
| Contributions (State) | - | | 55,398 | | (55,398) |
| Benefit payouts | (99,336) | | (99,336) | | - |
| Administrative costs | - | | (1,135) | | 1,135 |
| Total Net Changes | 25,302 | | 81,764 | | (56,462) |
| Ending Balance December 31, 2020 | \$ 748,221 | \$ | 834,652 | \$ | (86,431) |

For the year ended December 31, 2020, the City recognized pension expense of \$90,248.

City of Cannon Falls, Minnesota Notes to the Financial Statements December 31, 2020

Note 5: Defined Benefit Pension Plans - Fire Relief Association (Continued)

At December 31, 2020, the City reported deferred inflows of resources and deferred outflows of resources, its contributions subsequent to the measurement date, related to pension from the following sources:

| | D C of F | Ī | eferred nflows esources | |
|--------------------------------------|----------------|--------|-------------------------------|--------|
| Differences Between Expected and | | | | |
| Actual Experience | \$ | - | \$ | 29,244 |
| Changes in Actuarial Assumptions | | 11,780 | | 3,069 |
| Net Difference Between Projected and | | | | |
| Actual Earnings on Plan Investments | | - | | 24,488 |
| Contributions to Plan Subsequent | | | | |
| to the Measurement Date | | 55,796 | | |
| Total | \$ | 67,576 | \$ | 56,801 |

Deferred outflows of resources totaling \$55,796 related to pensions resulting from the City's contributions to the plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows of resources related to the plan will be recognized in pension expense as follows:

| 2021 | \$ (11,829) |
|------------|-------------|
| 2022 | (8,941) |
| 2023 | 4,043 |
| 2024 | (21,354) |
| 2025 | (2,631) |
| Thereafter | (4,309) |

E. Actuarial Assumptions

The total pension liability at December 31, 2020 was determined using the entry age normal actuarial cost method and the following actuarial assumptions:

Retirement Eligibility at the Later of Age 50 or 20 Years of Service

Inflation Rate

2.50% per year

Investment Rate of Return

5.50%

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates for expected future real rates of return (expected returns, net of inflation) were developed for each asset class using the plan's target investment allocation along with long-term return expectations by asset class. Inflation expectations were applied to derive the nominal rate of return for the portfolio.

City of Cannon Falls, Minnesota Notes to the Financial Statements December 31, 2020

Note 5: Defined Benefit Pension Plans - Fire Relief Association (Continued)

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation | Long-term Expected Real Rate of Return |
|----------------------|----------------------|--|
| Domestic Equity | 47.00 % | 4.95 % |
| International Equity | 25.00 | 5.24 |
| Fixed Income | 7.00 | 1.99 |
| Real Estate | 1.00 | 4.19 |
| Cash | 20.00 | 0.58 |
| Total | <u>100.00</u> % | |

F. Discount Rate

The discount rate used to measure the total pension liability was 5.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions to the plan will be made as specified in statute. Based on that assumption and considering the funding ratio of the plan, the fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following presents the City's net pension liability (asset) for the plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate 1 percent lower or 1 percent higher than the current discount rate:

| | 1 | Percent | 1 Percent | | | | | |
|----------------------|-------|------------------|-----------|----------|----|------------------|--|--|
| | Decre | Decrease (4.50%) | | | | Increase (6.50%) | | |
| Defined Benefit Plan | \$ | (65,906) | \$ | (86,431) | \$ | (106,293) | | |

H. Pension Plan Fiduciary Net Position

The Association issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the Cannon Falls Firefighter's Relief Association, 137 4th Street North, Cannon Falls, Minnesota 55009.

Note 6: Other Information

A. Legal Debt Margin

In accordance with Minnesota statutes, the City may not incur or be subject to net debt in excess of three percent of the market value of taxable property within the City. Net debt is payable solely from ad valorem taxes and therefore, excludes debt financed partially or entirely by special assessments, enterprise fund revenues or tax increments. The City has \$367,378 applied against the limit.

City of Cannon Falls, Minnesota Notes to the Financial Statements December 31, 2020

Note 6: Other Information (Continued)

B. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the City carries insurance. The City obtains insurance through participation in the League of Minnesota Cities Insurance Trust (LMCIT), which is a risk sharing pool with approximately 800 other governmental units. The City pays an annual premium to LMCIT for its workers compensation and property and casualty insurance. The LMCIT is self-sustaining through member premiums and will reinsure for claims above a prescribed dollar amount for each insurance event. Settled claims have not exceeded the City's coverage in any of the past three fiscal years.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities, if any, include an amount for claims that have been incurred but not reported (IBNRs). The City's management is not aware of any incurred but not reported claims.

C. Concentrations

The City receives a significant amount of its annual General fund revenues from the State of Minnesota from the Local Government Aid (LGA) program. The amount received in 2020 was \$686,141. This accounted for percent of General fund revenues.

Note 7: Commitments and Contingencies

Tax Increment Districts

The City's tax increment districts are subject to review by the State of Minnesota Office of the State Auditor (OSA). Any disallowed claims or misuse of tax increments could become a liability of the applicable fund. Management has indicated that they are not aware of any instances of noncompliance which would have a material effect on the financial statements.

Note 8: Transactions between the Primary Government and its Component Unit

The City conducts routine transactions with its component unit for services provided. The City provides administrative and financial services for the EDA activities. Other significant transactions between the primary government and its component unit are described in other notes.

Note 9: Special Item

During the year, the City received some land through forfeiture. The City plans to re-sell the land in the near future.

Note 10: Subsequent Event

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus ("COVID-19") and the risks to the international community as virus spreads globally. On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally. In response to the pandemic, the State of Minnesota has issued stay-at-home orders and other measures aimed at slowing the spread of the coronavirus.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. Due to the rapid development and fluidity of this situation, the City cannot determine the ultimate impact that the COVID-19 pandemic will have on its financial condition, liquidity, and future revenue collection, and therefore any prediction as to the ultimate impact on the City's financial condition, liquidity, and future results of its revenue collections is uncertain.

Notes to the Required Supplementary Information - General Employees Retirement Plan

Changes in Actuarial Assumptions

2020 - The price inflation assumption was decreased from 2.50% to 2.25%. The payroll growth assumption was decreased from 3.25% to 3.00%. Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates. Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements. Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter. Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females. The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments. The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019. The assumed spouse age difference was changed from two years older for females to one year older. The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

- 2019 The mortality projection scale was changed from MP-2017 to MP-2018
- 2018 The mortality projection scale was changed from MP-2015 to MP-2017. The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.
- 2017 The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability. The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.
- 2016 The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2035 and 2.5 percent per year thereafter to 1.0 percent per year for all future years. The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 7.5 percent. Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.
- 2015 The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2035 and 2.5 percent per year thereafter.

Notes to the Required Supplementary Information - General Employees Retirement Plan (Continued)

Changes in Plan Provisions

2020 - Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020

2019 - The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 - The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024. Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018. Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply. Contribution stabilizer provisions were repealed. Postretirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors. Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 - The State's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter. The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The state's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

2016 - No changes noted

2015 - On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised.

Notes to the Required Supplementary Information - Police and Fire Plan

Changes in Actuarial Assumptions

- 2020 The mortality projection scale was changed from MP-2018 to MP-2019
- 2019 The mortality projection scale was changed from MP-2017 to MP-2018.
- 2018 The mortality projection scale was changed from MP-2016 to MP-2017. As set by statute, the assumed post-retirement benefit increase was changed from 1.0 percent per year through 2064 and 2.5 percent per year, thereafter, to 1.0 percent for all years, with no trigger.
- 2017 Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates. Assumed rates of retirement were changed, resulting in fewer retirements. The Combined Service Annuity (CSA) load was 30 percent for vested and non-vested deferred members. The CSA has been changed to 33 percent for vested members and 2 percent for non-vested members. The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees. Assumed termination rates were decreased to 3.0 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall. Assumed percentage of married female members was decreased from 65 percent to 60 percent. Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females. The assumed percentage of female members electing joint and survivor annuities was increased. The assumed post-retirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter. The single discount rate was changed from 5.6 percent to 7.5 percent.
- 2016 The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2037 and 2.5 percent per year thereafter to 1.0 percent per year for all future years. The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 5.6 percent. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.
- 2015 The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2037 and 2.5 percent per year thereafter.

Notes to the Required Supplementary Information - Police and Fire Plan

Changes in Plan Provisions

2020 - No changes noted

2019- No changes noted

2018 - As set by statute, the assumed post-retirement benefit increase was changed from 1.0 percent per year through 2064 and 2.5 percent per year, thereafter, to 1.0 percent for all years, with no trigger. An end date of July 1, 2048 was added to the existing \$9.0 million state contribution. New annual state aid will equal \$4.5 million in fiscal years 2019 and 2020, and \$9.0 million thereafter until the plan reaches 100 percent funding, or July 1, 2048, if earlier. Member contributions were changed from 10.80 percent to 11.30 percent of pay, effective January 1, 2019 and 11.80 percent of pay, effective January 1, 2020. Employer contributions were changed from 16.20 percent to 16.95 percent of pay, effective January 1, 2019 and 17.70 percent of pay, effective January 1, 2020. Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018. Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply. Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 - Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates. Assumed rates of retirement were changed, resulting in fewer retirements. The combined service annuity (CSA) load was 30.00 percent for vested and non-vested, deferred members. The CSA has been changed to 33.00 percent for vested members and 2.00 percent for non-vested members. The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees. Assumed termination rates were decreased to 3.00 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall. Assumed percentage of married female members was decreased from 65.00 percent to 60.00 percent. Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females. The assumed percentage of female members electing joint and survivor annuities was increased. The assumed postretirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter. The single discount rate was changed from 5.60 percent per annum to 7.50 percent per annum.

2016 - No changes noted

2015 - The post-retirement benefit increase to be paid after attainment of the 90 percent funding threshold was changed, from inflation up to 2.5 percent, to a fixed rate of 2.5 percent.

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

Honorable Mayor and City Council City of Cannon Falls, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States the financial statements of governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Cannon Falls, Minnesota as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 30, 2021.

In connection with our audit, nothing came to our attention that caused us to believe that the City failed to comply with the provisions of the contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing sections of the *Minnesota Legal Compliance Audit Guide for Cities*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65 insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and City Council City of Cannon Falls, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Cannon Falls, Minnesota (the City), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated June 30, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying Schedule of Finding and Response as item 2020-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The City's Response to the Finding

The City's response to the finding identified in our audit is described in the accompanying Schedule of Finding and Response. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

THIS PAGE IS LEFT BLANK INTENTIONALLY

City of Cannon Falls, Minnesota Schedule of Finding and Response For the Year Ended December 31, 2020

<u>Finding</u> <u>Description</u>

2020-001 Preparation of Financial Statements

Condition: As in prior years, we were requested to draft the audited financial statements and related footnote

disclosures as part of our regular audit services. Ultimately, it is management's responsibility to provide for the preparation of your statements and footnotes, and the responsibility of the auditor to determine the fairness of presentation of those statements. It is our responsibility to inform you that this deficiency could result in a material misstatement to the financial statements that could have been prevented or detected by your management. Essentially, the auditors cannot be part

of your internal control process.

Criteria: Internal controls should be in place to provide reasonable assurance over financial reporting.

Cause: From a practical standpoint we do both for you at the same time in connection with our audit. This

is not unusual for us to do with an organization of your size.

Effect: The effectiveness of the internal control system relies on enforcement by management. The

effect of deficiencies in internal controls can result in undetected errors in financial reporting.

Recommendation: It is your responsibility to make the ultimate decision to accept this degree of risk associated with

this condition because of cost or other considerations. As in prior years, we have instructed management to review a draft of the auditor prepared financials in detail for their accuracy; we have answered any questions they might have, and have encouraged research of any accounting guidance in connection with the adequacy and appropriateness of classification of disclosure in your statements. We are satisfied that the appropriate steps have been taken to provide you with the completed financial statements. While the City is reviewing the financial statements, we recommend that a disclosure checklist be utilized to ensure all required disclosures are presented

and the City should agree its financial software to the numbers reported in the financial

statements.

Management Response:

For now, the City's management accepts the degree of risk associated with this condition and thoroughly reviews a draft of the financial statements.
