

MEMO

TO: HONARABLE MAYOR AND CITY COUNCIL

FROM: MIKE ALTHOFF, FIRE CHIEF

SUBJECT: Disposal of 1991 Ford Pumper

MEETING DATE: November 16th, 2021

BACKGROUND

On June 21st the council approved the purchase of a new 2020 Freightliner Pumper Truck. We took delivery of that truck on August 24th and put in in service a week later. Now we need to dispose of the 1991 Ford. I have a price in mind that seems consistent to other vehicles of the same age and type that I have found for sale around the country. Other departments have had success selling equipment on GovDeals which is a nation-wide auction site that we have an account with. The Auction expired with a high bid of \$3,600.00. We had a \$5000 reserve on the truck so no sale was made. We have a local buyer that has offered \$3000 for the truck. Due to inspections coming due on the truck to keep it road certified I would like to sell the truck to the local buyer at this price.

STAFF RECOMMENDATION

Sell the 1991 Ford Pumper to Niles King for \$3000 in as is condition.

REQUESTED COUNCIL ACTION

Motion and approval to sell the 1991 Ford Pumper as noted above.
