

TO: Mayor and City Council

FROM: Dan Howard, Public Works Director

SUBJECT: Purchase of a new 12 foot utility trailer

MEETING DATE: Tuesday, April 19, 2022

BACKGROUND

Public Works presently has one 10 foot utility trailer. We would like to add a 12 foot trailer which would give staff the ability to haul mowers/equipment to the work site instead of driving individual mowers/equipment to the destination, and give us the ability to fit equipment on a 12 foot trailer that would not fit on a 10 foot trailer. ACE Trailer sales of Hastings quoted an H & H 82" x 12' Steel Utility Trailer with solid sides and a mesh ramp for \$3,570. Ferguson Trailer Sales quoted a PJ 83" x 12' Steel Utility Trailer with rail sides and a mesh ramp for \$3,786. Public Works would prefer the H & H solid side trailer for \$3,570. The funds for this purchase would come from the Public Works Equipment Fund.

REQUESTED COUNCIL ACTION

Motion and approval to move forward with the purchase of the H & H 82" x 12' trailer for \$3,570 as recommended by the Public Works Commission.
