Subject: RE: Conditional Use Permit for Monday's Meeting

Neil-

Bill and I discussed this proposed grading plan and have the following comments:

1. We are not sure if the contours shown are existing or proposed. If they are proposed contours, the existing contours should also be shown. We understand some recent filling has already taken place on the lots. The legend references existing lot elevations. The proposed elevations should be provided.
2. The proposed slopes should be labeled in the house area and in the bluff area. We have scaled the plan. We arrived at a 6 ½ :1 (horizontal):(vertical) slope for the house area and 1 ½ : 1 as the steepest slope north of the bluff line.
3. The front lot corner elevations should be shown, if available.

Please contact us with any questions.
