

TO: Mayor and City Council

FROM: Dan Howard, Public Works Director

SUBJECT: Winter Parking

MEETING DATE: Tuesday, January 17, 2023

BACKGROUND

The winter parking area on Mill Street near Nick's Diner and the Library is challenging for snow removal. A possible option for winter parking would be in the Lee Chevrolet parking area next to the Winery and across from Tillions. This location would be easier to maintain as far as snow removal and allow Public Works to clean up the area near Nick's Diner and the Library more easily. Since this is an EDA property, they were included in the discussion and are on board with the change. The attached maps show the existing area as well as the proposed area.

REQUESTED COUNCIL ACTION

I respectfully request a motion and approval to move forward with the winter parking change as recommended by the Public Works Commission.
