

TO: Mayor and City Council
FROM: Jed Petersen, Public Works Director
SUBJECT: 2024 Street Overlay
MEETING DATE: Tuesday, January 16, 2024

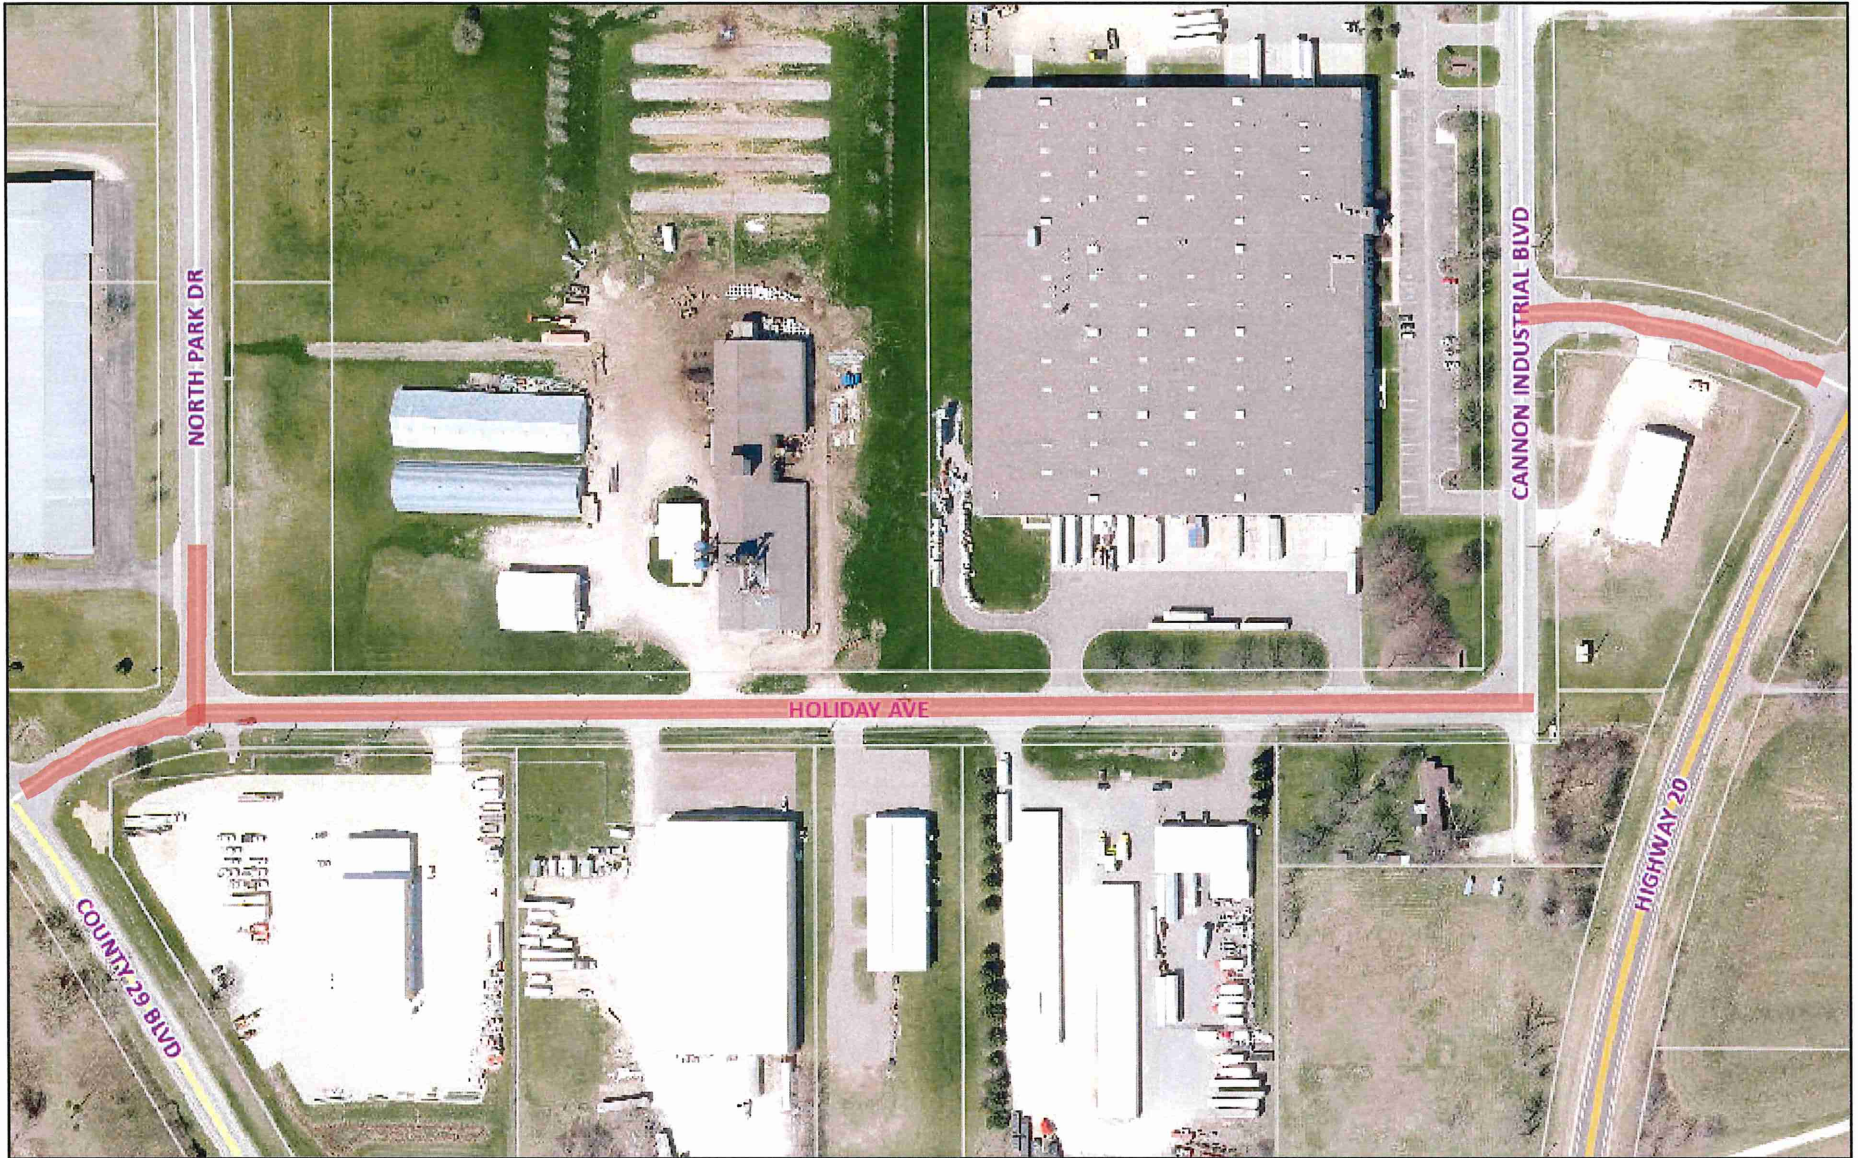

BACKGROUND

Public works evaluated streets throughout Cannon Falls that are in need a mill and overlay. In general, a street has two lifts or layers of asphalt. The base layer or first lift and the wear layer or second lift. In a mill and overlay some of the wear layer is milled down and then overlaid with new asphalt to extend the life of the road preserving the base layer. An overlay is done before the base layer has deteriorated and a full reclaim is needed to replace both lifts of asphalt. Holiday Ave and Industrial BLVD meet the criteria of needing to be overlaid due to the heavy truck traffic on these streets. I have selected to overlay all of Holiday Ave in 2024 at an estimated cost of \$150,000. The city will plan on overlaying Industrial Blvd in 2025.

REQUESTED COMMISSION ACTION

Motion and approval to move forward with the 2024 overlay of Holiday Ave at an estimated cost of \$150,000.

Holiday Ave Overlay
