

TO: Mayor and City Council

FROM: Tim Malchow, EMS Chief

SUBJECT: Ambulance 3 Chassis Disposal

DATE: June 3, 2025

BACKGROUND

On April 9, 2025, the City Council approved the remount of an ambulance. Shortly after approval, the ambulance was transported to Michigan for the remount work. As part of this process, the remount company has removed the chassis from the ambulance module.

Due to the age, mileage, and overall condition of the 2015 Ford E450 chassis, it is no longer viable for continued use and is recommended for sale as scrap. The remount company has provided a scrap value of \$750.00 for the chassis.

REQUESTED COUNCIL ACTION

I respectfully request a motion to approve the disposal of the 2015 Ford E450 chassis and to accept \$750.00 for its value, which will be deducted from the final invoice for the remount.
